

Hi-Capacity Tilt Table

Designed specifically for Bariatric use, unique in its design it is the only tilt table available on the market that can safely lift and tilt up to 350kg.

The footplate meets flush with the floor minimizing tripping hazards when the patient walks on and walks off.

The smooth quiet tilt function from horizontal to +85° allows for infinite adjustment in between and is supplied complete with three extra wide patient safety straps, multi-function hand switch and central locking castors.

Also available with electrically operated footplate and optional digital weighing system built into frame

Features

- Electric height & tilt adjustment with hand switch
- Single foldaway footplate as standard
- Optional +/-10° plantar/dorsi footplate available
- 3 x Patient safety straps supplied as standard
- Footplates can foldaway converting the tilt table into an Examination Table when required
- Independently operated tilt and height adjustment – can be operated at the same time or individually from any position
- Central locking castors
- 150mm clearance to accommodate patient lifter
- Optional digital weighing system available
- Optional electrically operated footplate available
- Castor legs at tilt end are wide enough to fit a walking frame
- 5 Year warranty on frame & electrics
- Australian designed and manufactured
