

## Universal Examination Table

Every practice should have at least one heavy duty table allowing the safe lift of heavy patients reducing fatigue and back strain on the practitioner.

The electric HI-LO can safely lift up to 300kg, while the low minimum height allows for easy patient access and safe wheelchair transfers.

Designed to help with patient examination and procedures where cubicle space is an issue.

Each end section can be raised and lowered for left and right patient examination & procedures.

### Features

Electric Height Adjustment with handswitch

Column lift eliminating crush points

Independently Lockable Castors

Durable powder coated rust resistant frame

High quality anti-microbial vinyl & CFC free foam

5 year warranty on frame & electrics

Australian designed & manufactured
